

School Profile: Memorial High School

Introduction

At James Madison Memorial High School, we believe all students can be successful if they are well-understood and well-supported by the entire school community and challenged through use of a rigorous and relevant curriculum, delivered with dynamic and flexible instruction. As a school community, we are committed to working together to making this vision a reality for all students.

Strengths

We know that establishing trusting relationships throughout the Memorial community is key in seeing students achieve their full potential and is a key part of our School Improvement Plan. As a community, we believe that no effective learning can happen without a relationship as a foundation, and are continually focused on building strong relationships and a healthy school community. We also know that if students struggle as Freshmen, they will be held back their entire high school careers. Therefore, we are committed to ensuring smooth transition and to providing all students with any supports necessary to ensure their success.

Progress

This year, we again saw significant increases in the graduation rates for all students, and for our African American students in particular. We were again able to decrease the overall number of Freshmen with 2 or more Fs, though we saw an increase in our African American Freshmen percentage. We were able to increase the percentage of students taking advanced courses and hope to continue that trend into next year.

Areas for Growth

Moving forward, we are hoping to be even more collaborative as a school community as we work to meet the needs of each and every student. Our teachers are an incredibly powerful force. Providing them more time to work together as teams, more opportunities to watch each other teach, connect with families, share feedback and help each other grow is what we're working on this year. We will also push our students to be even more collaborative, and we'll provide more targeted student supports.

Vision Connection

Our school supports MMSD's vision that all students acquire the skills and abilities needed to be successful, including a mastery of content areas, growth mindset, self-knowledge, creativity, wellness, interpersonal skills, confidence, cultural competence and community connection. Through these skills and abilities, our students will graduate college, career and community ready.

Dual Language Immersion No
SAGE No
Attendance Rate 91.9%
Total Enrollment 1,916

Demographics

Strategic Framework Goal #1 Milestones: On-Track to Graduate

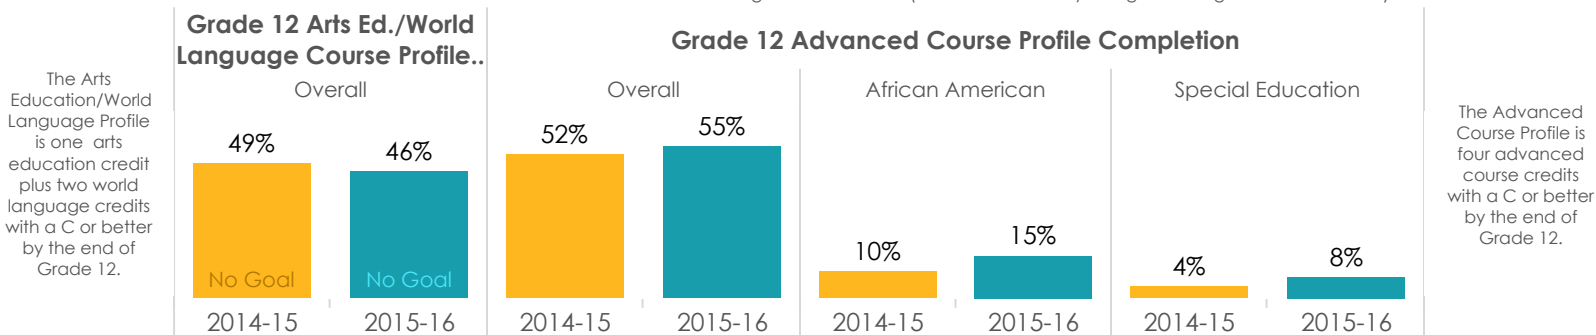

Each bar shows the percent of students meeting the relevant metric overall and for the focus groups the school selected on their School Improvement Plan (SIP, when applicable).

College Readiness is based on the percent of students meeting college readiness benchmarks on ACT/ASPIRE (Grades 9-11).
 High School Completion is on a one-year lag (e.g. "2015-16" refers to the Class of 2015).

Strategic Framework Goal #2 Milestones: Challenging and Well-Rounded Education

Each bar shows the percent of students meeting the relevant metric overall and for SIP focus groups (when applicable).
 "No Goal" within bar indicates that the school chose not to set a goal for this metric (schools choose only one goal-setting metric for Goal #2).

Strategic Framework Goal #3 Milestones: Positive Climate

Each bar shows the percent of responses within each dimension and group that were positive.
